

SDF Internship Program

The Internship Program is a project-oriented learning opportunity for graduate students to gain experience through research assignments based on SDF's current and future operational needs.

SDF advertises internship assignments and welcomes motivated, open-minded, and self-directed individuals to apply.

The internship program offers the opportunity to work in a major international development organization;

- work collaboratively with experienced professionals from over 8 different countries;
- gain a deeper understanding of development finance and the impact of the work SDF does; and
- Contribute to SDF's business through research outputs.

Internship candidates must:

- be enrolled in a Graduate, Master's- or PhD-level program at a school in one of the SDF member nations, both prior to and after the internship assignment;
- be engaged in academic study in a field directly related to SDF's work;
- be a national of one of SDF's members;
- possess an excellent command of English; and
- Have professional experience relevant to the assignment.

SDF does not accept applications from close relatives of SDF personnel.

Selection Process

- SDF announces the assignments on the website and candidates choose assignments of interest.
- Candidates apply through email or walk-in, prepare for their CVs and answer the mandatory questions.
 - All documents (CV and essay) are attached with email to apply.
 - Applications submitted after the deadline will not be considered.
 - To avoid errors in submission, applicants are advised not to wait until the last day of the application period in submitting their internship applications.
- SDF evaluates applications based on: eligibility requirements, relevance of academic study and work experience; and the level of interest and motivation to contribute to development work. SDF also considers institutional representation, gender, and nationality balance in the over-all intern selection process.

Only shortlisted candidates will be contacted.

Current Opportunities (Focus Area's)
